

Character Building Process of Joseph

Joseph was in boarding school. It was not easy for him to survive in hostel without any support. Every day he had to follow strict hostel routine which was decided by school. Wake up in the early morning at 6 am, then get ready for the class, attend all the classes, in afternoon do practicals and then in the evening there is drama class. Between all this hustle he had to take out time for his own activities like. Personality development and bodybuilding and exercising etc. So it was tough for him to manage all these things together. After all he was a silver spoon child so he had not experienced all this thing before in his life.

Another problem was that Joseph was not good at study. In every exam he got marks below average. Sometimes he got irritated due to his poor performance in the exam though he was doing enough hard work according to his capacity. Once his performance crossed all limits and he failed in one subject. For him it's like a mountain fall down on his head. He went in deep depression. It was a dark time for him. He was surrounded by only one thing and it was his loneliness. At that time of sadness there was no one who took care of him or consoled him. Because at that time Joseph could not have any best friend or close friend. Also he did not want to share these things with his parents because they were busy in their hustle. For a moment, one thought came into his mind and went at double speed compared to its arrival speed and thought was to commit suicide. But it requires lots of courage, which he had not. Though this incident affected him a lot. After that incident he could not be able to follow that strict hostel routine for few days. But there was one guy who knew Joseph to some extent.

His name was Roy Butler. He belonged to a middle class family, but his action and his thought were not middle class. Throughout his childhood he got some good character traits and from his parents. He got some royal qualities in inheritance. By look he was a very simple guy. He was very confident about what he thought and what he did. He never felt regret about whatever he did. He used to read books, Philosophical books, Motivational books and he strongly believed in God, Jesus Christ. So he used to go to church. He got some kind of invisible energy there. He was so much attracted towards atmosphere of church, candles and divine sounds or you can say pin drop silence. The live but dead Jesus Christ's statue fascinated him from

internally. So this were the resources like books, church, Jesus Christ from where he got all his energy and confidence and also his parents support and their moral were played important role in his life. So in short he was confident, obedient and simple guy.

So Roy and Joseph were classmates. But not very close friends. When he got to know that Joseph was in depression and he was not attending the class, then he went to Joseph's room to meet him. Roy gave him condolence. He told him that life is all about up and down. Sometimes you win and some time you lose. You have to learn from your failure and move on. So Roy gave him inspiration for moving ahead in life. Joseph understood that and control himself.

Joseph and Roy became good friends after this incident. Joseph used to be with Roy. They went to library together. Some time they also went to church together. By doing all these activities Joseph was able to develop some qualities of Roy like Joseph started reading books, believing in God. Joseph felt motivated from internally. It was the crucial part of Joseph's life because he never knew about these things in his life before. He had known only fights between his parents. He was introduced to new world. He did not know about this side of life. He started knowing about life. He was understanding life very deeply. He was dragged into this fascinating and wonderful world.

One day, when he took Holy Bible in his hand he felt some type of divine energy. He started reading it. By reading the Bible he got the new way to looking at life. He learnt lots of new lessons of life from it. He got to know lots of things about life. Some of them are mentioned here,

“Every person on earth born with some purpose and person has to find it and try to complete it.”

“There is no inferiority or superiority for any work. Each and every work has its own importance.”

“Each and Every Problem in your life comes with Opportunity you have to grab it.”

“In life most important thing is that Acceptance. This is the biggest thing you can have. It is helpful for knowing yourself.”

“You have to accept yourself if you are not satisfied with yourself there is no

chance that you can satisfy other person means if you are not happy with yourself you cannot deliver happiness to other.”

“You are one individual in this world, don’t lose your individual identity due to any distraction.”

So, Joseph learnt this things from bible and he was applying this things on his life. It had changed his life and his way of looking at life totally. Now he was not afraid of anything in his life. He was able to face any problem in his life. Whether it was the problem of his study or it’s related to his dream, he was so much confident to take his decision. The main thing was that he was accepting each and every condition of life. His acceptance level at high point. He did the things what he wanted, He didn’t care about what people say.

As he was growing up and He was becoming more and more mature. In his college days, he met different kind of persons, weird persons who was living their lives against the rules of Society. They persons were considered in our society is taboo. Yes I am talking about the Homosexuals, Bisexuals. Some of Joseph’s friends came into these categories, but for Joseph they are like normal people. He did not find anything wrong with them. Because Joseph knew that every individual has its own identity and if that person had accepted his/her identity then it’s okay, no one should have problem with it. Everyone has right to live his/her life with his/her way. So, Joseph’s way of thinking was changed totally after reading all books and Specially Bible.

One strange thing was that Joseph was very comfortable with them, one or another way he was considering himself one of them at some extent. Joseph knew them very well. Joseph knew that to live in society with this tags is not easy. People are always judging you. You are always stared by specious eyes. He heard the many stories about this peoples. Some of them were very open and broad minded. They didn’t care about people. They have accepted their self as they were. But few of them were soft hatred means they could be easily affected by some sharp words. They took this things very seriously. That’s why they tried to hide their identity but because of that sometimes, conditions went worse than earlier means some people could not tolerate the torture which was coming from people

and decide to end up their lives. But according to Joseph this should not be happened. In fact the person who think like that and take some wrong step, they are stupid than who are passing comment on them. He thought that if you want to live in this world then you have to accept yourself who you are. Regardless of that what people are saying. If you are happy with it then live with it. Sometimes joseph also inspired the people who were suffering of this problem and he showed them new way of looking at life and how to live their life.

So, this way joseph had built up his mindset, high level of acceptance and how to live your life when so much of fingers are pointing at you. After college finished he went to los Angeles to fulfill his dreams.

Rest of story you know...!!
