

Assignment - 3

Name : Dhaval Prajapati

ID : 201401138

★ BAD MORNING :

In this poem or you can say in few lines, poet describes helplessness and frustration of normal poor person in a very funny way. In this poem poet describes life of the normal people , who lives in streets. In the morning, that person was frustrated because his/her shoes was changed with someone's shoes and i guesses that person's previous shoes would better then current shoes , that's why the person is frustrated and the condition of poet is like, "GARIBI ME AATA GILA". If we look at the other side of coin, suppose that if person's shoes would mismated with another good or new shoes then that person would be happy. But now in this condition a person can't do anything, whatever happened person has to bare that.

Here the word "Lawdy - mercy" creates funny and frustrated image of that person and " I's frustrated" shows that the poor knowledge of language that person, which describes the lower level of literacy.

Here poet uses rhyiming scheme ABCB which you can by this words, "sit / mismated/ mercy / frustrated ". So, at last in this poem poet

depicts pithiness, sadness, frustration and the power of can't do anything whatever has happened which is funny part.

★ Ennui :

Again this so called one line poem says a lot to us ,this shows the desire of human to being wealthy, to get the happiness . It is truth that without money you can not get whatever you want or you can not fulfilled your all desires.so the poor people can not fulfill their dream.And rich people can easily fulfill their dreams.So here money becomes the important factor in this poem.

Every human has its own dream, its own desire.I think that we all born as human beings, we all have right to get the equal happiness in our life in one way or another ,but we have already created the walls of religion, social hierarchy and secularism in our world.Some child born with silver spoon and some even doesn't have the spoon to eat.What a pettiness..!!Poor people get bored from their daily routine life.They have to do their traditional work though they don't like it,the reason behind that could be family pressure or may be society would not accept their different type of work.So they remains poor till their whole life and they can't fulfill their dreams or desire which they have.So, in this poem we can say that poet tries to put some sarcasm to the Inequality of world though poet shows only one side of coin.Here another side of poem is that if they

fight for their rights or do the hard work then they can get whatever they dreamed.

Here poet uses rhyming scheme ABCB, which we can see by this wordings, “such a / bore / always / poor”.

★ Park Bench :

In this poem, the person seems to be a beggar who is homeless, very poor and may be wandering on streets like “AWARA LOG”. Even who fights for necessities like food, shelter, clothes to live. And the big economical difference between that poor person and the thing with whom he/she might be talking, that Park avenue shows the economical inequality by this lines, “i beg a dime for dinner / you got a butler and maid”. Basically it shows the difference between the poor people and rich people in society. In this poem we can see the factor of jealousy or maybe it would be desire of that person, the desire to gain something, desire to be something.

In this it seems to be like the person or community of that person is going to fight against this social, economical inequality, they are

going to fight for their rights by this lines : “But I'm wakin' up! / In a year or two / Move on over /To Park Avenue?”.

”And it's the time to bring revolution.But here i would like to mention one point that the person's confidence is crossing its threshold and some or another way it converts into overconfidence by this line : “Say,ain’t you afraid”.And person is so confident that he/she knows the how much time it will take to complete his desire.i mean wow...!!So if they will get the success to gain their rights then they will get the better life which they dreamed.

At the end of the day ,we could see that the natural human emotions like keenness,desire,to get redemption to get rid of complexity of life and tries go towards the prosperous life in this poem.

★ Harlem :

Humans are used to make dreams about their life.But there is no guarantee to its completion.There is vast ocean of different different types of possibilities.it includes may be success or failure,joy or sadness,perfectness or imperfectness.So in this poem poet describes that what could happens to those dreams which has been seen through those inferior people.But here poet shows this phenomena in very cruel, freaky,and disgusting way that the picture of dreams if they will fail, by this lines: “fester like sore / stink like rotten meat / crust and sugar over like a syrupy sweet”.The wordings which are used is very destructive.

In the worst case the incompleteness of their dreams becomes the load on their lives means you can't do anything about it and you can't sit without doing anything, which pains a lot like swords which are pushed in your stomach and you can't pull it out and you can't pull it in. Or you can say, it's like "Na rahi sakay na sahi sakay" type condition.

At the climax poet shows the possibility of exploitation of dream. Here word exploitation is in italic mode which grabs your attention. Here word "exploitation" creates the image of freedom or it can be image of danger. So, there are two possibilities. One is that all the hardwork and struggle which they did comes with huge success and sunshine is spread in their life. And another is that it just came with in violent manner which could be very destructive.

So, in this poem poet describes digital world and analog world. Let me explain, digital world there is only 1s and 0s. So poem described that what will happen if desire gets fulfilled and what will happen if desire does not get fulfilled. And also talked about analog world by what happens if it get stucked in between.
